

The Athletic Trainer System®

ATS may be run on a MAC in several ways:

The ATS Desktop may be run on a MAC with an Intel processor:
Running **VMWare** Fusion, **Virtual Box** or **Parallels** with Windows 10 or newer installed. Links for both are below.
Running boot camp you may also partition the hard drive, install Windows 10 or newer, then install/run the ATS Desktop.

Parallels link:

Virtual Box:

<https://www.virtualbox.org/wiki/Downloads>

The ATS Staff Portal may be run on any machine using an internet browser. This includes running Safari on a MAC. Using the ATS Staff Portal you may do all of the day-to-day operations such as adding/viewing athlete info, entering injuries, entering/updating notes, checking out equipment, note medications given, check a team roster, enter/update rehabs, enter/update modalities and more.

The ATS Smartphone may be run on any machine using an internet browser. This includes running Safari on a MAC. Using the ATS Smartphone you may do many of the day-to-day operations such as adding/viewing athlete info, entering injuries, entering/updating notes, checking out equipment, note medications given, check a team roster, enter/update rehabs, enter/update modalities and more.

Keffer Development Services does not provide the Windows operating system, or do any software installation on local machines for setting up a MAC. Further we do not endorse any of the options shown.

Note: At least one user must run the ATS Desktop to perform Admin functions.

Note: We do not support the MAC environment, VMWare or Parallels.
