ATS— Adding Injuries in the Quick Med Check

You are able to add a new injury through the ATS Quick Med Check.

Notice when you first open the QMC, most of the boxes are grayed out. Until you select at athlete from the search bar, or use the team search you are not able to add any records to an athlete.

Search Athletes will show the list of all of the athletes that you have permission to see.

Allows you to first filter by the team, and then choose the athlete you are working on.

Choose the ATHLETE...

Adams, Leigh Ann
Allen, Shannon
Anderson Jr., Bobby
Anderson, Curtis
Anderson, Gabrielle
Anderson, Roberta
Ant, Adam B
Austin, Steve
Balboa, Rocky

Choose the Sport...

Choose the ATHLETE...

Brown, Barry
Clark, Billy
Davis, Crash

After you select the athlete the buttons will illuminate and you will be able to select them and enter information

To enter an injury for the athlete you selected , you can utilize the quick injury, or the injury plus.

You also have the option to complete a staff form, should you do your notes through there, or enter a concussion evaluation.

Once you finish entering the injury information in either the quick add, or the injury plus, you can then further complete the documentation utilizing any of the features of the QMC.
